

ALLIED PPO NETWORK AVAILABILITY

Allied's Health Plans provide you access to some of the best regional and local Preferred Provider Organizations (PPO). Each PPO is selected to maximize the selection of hospitals and doctors in your area. PPO plans can save you premium dollars and provide you with increased benefits whenever you use a network provider.

The chart below shows the available PPOs in your state, however, many of the PPO networks are limited to specific zip codes or counties. In some areas, Allied contracts with several PPOs to provide you the option of choosing your PPO based on provider availability and location as well as cost.

If multiple PPOs are available in your area, you must CHOOSE ONE for your group's health coverage. For more information on these networks or to identify PPOs available in your zip code or county, please contact your agent or Allied Sales Support at (888) 767-7133. If a PPO in your area is not listed, please call Allied for information and availability of that network.

State	Networks	Web Address
California	Coastal Healthcare Administrators	www.coastalmamt.com
