Making the Right Offer the First Time

With 360° LifeView,SM we use a clear consistent underwriting methodology that focuses on the most meaningful risk factors to make our best offer the first time.

Clear Consistent Communication

Our goal is to provide better customer service and ensure a higher placement ratio through focused communication that helps you understand our competitive position. Our strategy to improve the information you receive at every step of the application process is unfolding rapidly.

Fewer Requirements

We have reduced the number of requirements in several areas, this helps simplify and speed up the underwriting process. For example, we no longer automatically require an APS for all hypertension cases. Check out our modified Age and Amount Guidelines.

360° LifeView[™] Points

Introducing 360° LifeView Points, a proprietary credit/debit program that may improve your client's rating by one rate class. You don't have to ask for it—our underwriters will automatically use it to evaluate your Standard or better risk clients. 360° LifeView Points strengthens our leadership position in the Standard and better space, enabling more consistent, mortality based underwriting decisions and giving you the most accurate decision the first time.

Competitive Positioning

Target Market

Your clients who fall into our targeted market will receive our most competitive offers.

You can give your clients a more accurate quote if you preview the possible underwriting class that may be available to them, as well as alert them to additional information that may be needed if a listed impairment applies to them.

Key points to keep in mind:

- The severity of medical conditions varies among individuals and individuals may have multiple impairments.
- Underwriters will review the functional state of applicants age 65 or older. This includes their cognition, mobility and exercise capacity, weight change and nutritional status, social connectivity and level of independent living.
- If medical testing has been advised but not yet completed, the case will be declined.
- Underwriters' offers depend on the merits of each case.

Financial Underwriting Guidelines

Financial underwriting is a key part of the underwriting process. Underwriting will be faster and smoother if you submit the case with a fully completed application, explanatory cover letter and documentation supporting the amount of insurance applied for. A good cover letter could help the underwriter understand the case, including:

- Reason for the insurance
- How the amount applied for was determined
- Total amount of insurance on the insured's life with all companies
- Pending applications
- Life insurance to be replaced
- Ownership and beneficiary designations

Please include illustrations used to help make the sale and financial statements that help demonstrate the need for insurance with your cover letter.

Our underwriters follow these guidelines. The facts of each case will determine how much coverage we offer. You may use these guidelines to help your clients decide how much coverage they need, and to determine the information we need in order to evaluate the case.

Financial Underwriting Guidelines

Personal		
Purpose	Documentation	Coverage Amounts
Juvenile (minimum age: 15 days old; maximum age: 20 years old; must be dependent if over 18)	 All children should be covered in equal amounts Amount of insurance in force on the parents (or legal guardians) and siblings Justification for the amount applied for if it exceeds coverage on either parent, legal guardian or siblings If owner is the juvenile's legal guardian, provide a copy of the guardianship papers If owner is someone other than a parent or legal guardian (e.g., grandparent), the parent or legal guardian with whom the juvenile resides must sign the application — Part I and any Part II non-medical application New York law also requires the amount of coverage in force on the life of the policy-owner, even if the policyowner is a trust 	Lesser of \$250,000 or 50%* of amount of personal coverage on the parent or legal guardian with the least amount of insurance Amounts over \$250,000 will be considered individually and may require facultative reinsurance * In New York, if the proposed insured is between ages 15 days and 4.5 years, the maximum amount is the lesser of \$250,000 or 25% of the amount of personal coverage on the parent or legal guardian with the least amount of insurance

Working with Genworth

Temporary Insurance Application and Agreement (TIAA)

We offer a user-friendly approach to temporary insurance requests. Temporary insurance is designed to cover your client during the underwriting process. Coverage begins the moment your client signs the TIAA paperwork and submits the required premium, provided the Application—Part I is complete and submitted with the original signed TIAA and all TIAA eligibility questions are correctly answered "no."

Here are a few important points to remember about temporary insurance:

- Lasts a maximum of 90 days.
- Ends 45 days after the start date if the required exams and tests are not completed and received by Genworth by that time.
- Ends the date the owner withdraws the application, refuses the policy or offer or the date we mail notice that the case is declined.
- Coverage available under a TIAA is the lesser of the amount applied for and \$1,000,000 minus the amount of any insurance on the proposed insured's life in force with Genworth under any policies, conditional receipts or other temporary insurance agreements.

The policy will have the same date as the TIAA unless backdating is requested, and premium will be required from that date forward.
