The UnitedHealth Premium® designation program is an information resource to help you choose a physician or specialty center. It may be used as one of many factors you consider when choosing the physicians or facilities from whom you receive care. If you already have a physician, you may also wish to confer with him or her for advice on selecting other physicians. You may also wish to discuss a physician's designation with him or her, prior to selecting the physician. Like many performance assessment programs, physician evaluations have a risk of error. Please see myuhc.com® for detailed program information and methodologies.
