## Introduction

### Welcome!

Thank you for choosing to sell our products. We have tried to design this guide to make your job easier. It provides you with the possible decisions available for the most common medical conditions, requiring underwriting action.

The purpose of the Underwriting Guide is to show the most probable course of action to be taken by the Home Office Underwriting Department with regard to a pre-existing health condition. It is intended as a **guide** only. There may be occasions when additional information is available to the underwriting staff that would require an underwriting decision other than specifically outlined in this guide. For this reason, the guide should not be interpreted as a guarantee of underwriting action on any specific case. The underwriter's discretion is the ultimate determining factor in issuance of coverage.

### Field Underwriting Responsibilities

Good Field Underwriting by agents is essential in serving the needs of the applicant and assuring the terms of the policy are carried out in an appropriate and timely manner. It is important that the field underwriter makes every effort to review the completeness of the application and to accurately document the answers provided by the applicant(s). (*See Major Medical application checklist on Page 4.*)

- Coverage cannot be guaranteed at the time the application is completed. If an applicant asks when coverage becomes effective, the agent should explain that issuance is dependent upon written approval by the Home Office underwriters.
- When the agent completes an application, each question on the application needs to be specifically asked of the applicant(s) and the answers recorded as given.
- It is never permissible for the writing agent to ask a general question with reference to health history and then on receiving a negative reply, answer "No" to all of the health questions on the application.
- Answers to the application health questions should not be obtained from a third party.
- Where an application is required to be signed by the agent, the appointed writing agent must sign the application in ink. In signing an application an agent not only shows representation as the writing agent, but also affirms that he has followed the Field Underwriting Responsibilities set out by the Company.
- It is not acceptable to answer questions with "dashes" or "ditto" marks.

- If a mistake is made on the application, line through the error and have the applicant initial the correction.
- All affirmative "Yes" answers to the application health questions must be explained in detail on the application along with the name and address of the treating or consulting physician(s). Answers on the application are considered to have been given by the applicant. The Underwriters accept the given answers as being full and complete and that the answers have not been only partially recorded or edited by the writing agent.
- Any special dating request for the policy should be included with the application with an explanation. Under no circumstances will a health policy be backdated.
- When a child(ren) considered for coverage does not live with the applicant the health history must be verified with the custodial parent as well as from the parent applying for coverage. Please provide an accurate telephone number for the custodial parent.
- Once the writing agent completes the application, the agent cannot disclose any confidential information except to the Home Office Underwriting Department.
- The writing agent should advise applicants that prior health history can result in a counter offer to their application and that the policy may be issued with exclusions and/or rated premiums. This is also noted in the AGREEMENT section of the application. That section also notes the company's right to void or rescind coverage after issue if there has been non-disclosure of material health history. Some states have different requirements for the manner in which the Company handles material health history disclosed at application time. It is the writing agent's responsibility to become familiar with related state law or to seek guidance from the agent's upline Manager.
- The policy provisions will determine the responsibilities or liabilities of the Company. An agent cannot and must not make any representations or promises regarding claims processing or interpretation of the policy.

## Major Medical Application Checklist

In Risk Selection, the rule of thumb to go by is that we vastly prefer too much information to too little. With that thought in mind, here are some things you can do to help expedite your applications through the underwriting process.

### **1. Application**

- All questions answered completely
- Complete details provided for all YES questions
- If quoted preferred rate, submit a completed Preferred Rating Questionnaire with application.
- Provide complete name, address and phone number for each doctor listed on the application, including the date of last visit, reason for visit and the results.
- Provide most recent blood pressure and cholesterol readings, if known.
- Provide all possible phone numbers where applicants can be reached for the interview and the best time for the interviewer to call.
- Any changes or alterations made on the application must be initialed by the applicant.
- All signatures and dates obtained from both the applicant and agent including those required on the HIPAA authorization

### **2. Forms**

- All state specific required forms completed and signed by agent and applicant
- Provide all necessary information for list bill cases.
- Method of payment information completed and all forms needed are attached

### **The Underwriting Process**

During the underwriting process, the underwriter evaluates each individual's medical history and takes appropriate action based on the severity and prognosis of the condition(s).

To expedite the underwriting process the enrollment application should be completed accurately and all medical disclosures should include the specific diagnosis, dates of treatment, medications prescribed and the results of treatment. Underwriting outcome will also vary in accordance with state requirements.

In an effort to provide better up-front risk selection, an underwriter may request medical records or a paramedical exam on an applicant. This will enable us to determine at the time of application, if the applicant has a pre-existing condition or any other medical condition that will require exclusions and/or rated premium.

### **Medical Records/ Attending Physician Statement/ Paramedical Exams**

The underwriter will initiate the request for medical records and exams when applicable. These requirements may be requested for conditions noted as "IC", when no prior coverage has been in force or at underwriters discretion. We will handle costs associated for obtaining these requests up to a predetermined amount. You will be notified of this request through the application status on the website.

MIB/Rx Profile may be obtained as determined by Underwriting Department.

### **Driving Records**

Driving records may be obtained as determined by the underwriter.

### **Telephone Interview**

We use an interview Process to confirm the health information contained on an application. An interviewer may attempt to contact an applicant by phone within 24-48 hours of when the application is received at the home office. The call will take approximately 10 to 20 minutes per applicant. The interviewer will confirm the accuracy of the application, obtain any additional details that are needed and clarify any incomplete information. Important: Make sure you explain this process to your client and provide a copy of the application for your client to refer to during the verification call.

### **Tobacco Use**

An applicant must not have used tobacco in any form within one year of the application date to qualify for Non-Tobacco User Rates. A certificate/policy issued with Tobacco User rates will not be considered for modification to Non-Tobacco User rates until the insured has gone one year without using any form of tobacco, or six months have elapsed from the certificate/policy effective date, whichever is longer. In other words, a certificate/policy issued with tobacco user rates must be in force at least six months before the Non-Tobacco User Rates will be considered. This rule also will apply to specific conditions/impairments adjusted because of tobacco use, such as bronchitis or emphysema.

### **Declinations**

There are any number of reasons why an applicant may be declined for coverage.

1. If there is an existing condition/medical history identified as uninsurable, designated by RNA in the Health Underwriting Guidelines.
2. If any pending or recommended diagnostic workup, including tests, has not been completed and a final diagnosis has not been provided.
3. If any individual applicant requires a substandard rating exceeding 100%. This may vary according to state of residence.
4. If the applicant is disabled, receiving disability benefits or eligible for or on Medicare.
5. Any applicant that has pending or scheduled surgery or hospitalization.
6. If the number of actions needed on an applicant exceed 3-4 (depending on conditions)

### **Michigan Guidelines**

For this state, and any others added later that do not allow condition riders/waivers, or allow them for only a short period of time, the agent will need to consider most decisions to rider or waive the applicant as a DECLINE. Some conditions indicate if a rating can be used instead of a rider/waiver, and the agent can use a pre-underwriting call or review if they feel individual consideration is warranted.

### **Indiana Guidelines**

Indiana waivers are mandated for a period of no more than 10 years. Other special handling also applies.

### Removal or Modification of an Elimination Rider/Rating

All Elimination Riders can be reviewed after 2 years. However, the insured must send a written request for waiver or rating reconsideration. The insured will be responsible for the cost and procurement of any evidence of insurability deemed necessary by the underwriting department. This would include examinations, special medical tests and attending physician statements.

It is recognized that many health conditions can and do improve significantly with the passage of time and administration of proper care. Therefore, we will consider removal or modification of substandard ratings/riders for impairments of a less severe or non-chronic nature.

Impairments of a more chronic and serious nature generally will not qualify for rating modification or removal except under special circumstances. Such impairments as hypertension, cardiovascular disease, emphysema, arthritis and epilepsy fall into this category. A special underwriting review should be requested to determine the possibility of such rating reconsideration.

### Underwriting Actions Guide

*The Underwriting Guide contains two columns of information:*

**Column One** — Shows the Impairment/Condition involved as well as a brief outline of the underwriting criteria pertaining to the length of treatment and severity of the condition. (An applicant who has not used tobacco in any form for at least two years is considered a “Non-Tobacco User”.)

**Column Two** — Indicates the probable underwriting action to be taken.

*The following is an explanation of the symbols shown in this guide.*

**STD** — Standard: The impairment/condition may be accepted on a standard basis.

**ER** — Elimination Rider: The condition or disorder must be eliminated from coverage

**IC** — Individual Consideration: The potential seriousness of the condition/impairment is such that consideration can be given only after all pertinent facts have been accumulated and evaluated. ***The agent should make every effort to provide medical documentation with the application.***

**PP** — Postpone: The risk will be considered only after the recovery period indicated.

**RFC** — Rate for Cause: The stated condition may be a symptom or result of a health condition that will require the underwriter to fully investigate to determine the underlying cause and rate accordingly, if possible.

**RNA** — Risk Not Acceptable: The person who has the stated health condition is not insurable. ***An application is not to be submitted on any applicant with this condition/impairment.***

**RMD**—Refer to Medical Director.

## Preferred Underwriting Guidelines

To qualify for Preferred rating consideration, an applicant must be an adult (between the ages of 18-60) and meet the parameters outlined in the Preferred Rating Questionnaire. The Questionnaire is considered part of the application for insurance, and must be included with the submitted application if the applicant is requesting Preferred status.

### Build Chart for Preferred Risks

**Guidelines** – To be eligible for Preferred Rates, the proposed insured and/or proposed insured spouse:

1. Must be between the ages of 18 and 60;
2. Must not have an added health exclusion rider or health rate-up;
3. Must fall within the applicable height/weight table; and
4. Must answer “no” to all questions on preferred questionnaire;

<u>Male</u>		<u>Female</u>	
Height	Weight	Height	Weight
5'0"	98-152	4'10"	90-138
5'1"	101-155	4'11"	92-140
5'2"	103-159	5'0"	94-143
5'3"	105-162	5'1"	96-146
5'4"	107-166	5'2"	98-150
5'5"	110-171	5'3"	101-153
5'6"	112-175	5'4"	104-158
5'7"	115-181	5'5"	107-163
5'8"	118-186	5'6"	109-168
5'9"	121-191	5'7"	112-173
5'10"	124-197	5'8"	115-178
5'11"	126-203	5'9"	117-185
6'0"	129-208	5'10"	119-192
6'1"	132-215	5'11"	122-197
6'2"	135-220	6'0"	123-202
6'3"	139-226	6'1"	126-207
6'4"	143-232	6'2"	130-213
6'5"	146-240	6'3"	134-219

## Health Insurance Build Charts

1. If there has been weight loss of more than 20 pounds within one year, divide the loss in half and add it to current weight before entering into the table.
2. A reduction in rating due to build will be considered once an insured loses enough to qualify for the lower rating and maintains the reduced weight for at least 6-12 months.
3. Underweight can be more serious than overweight. Keep in mind that in certain people, because of small physical stature, an underweight condition is normal and perfectly healthy.
4. Sudden weight loss without voluntary dieting is an ominous sign.
5. Certain conditions require an additional rating because of the enhanced morbidity risk, e.g., hypertension and overweight build.
6. The weight is in pounds.

Height		MALE						Height		FEMALE					
F E N E C T H	I N C H	20% for Weights less than	Avg. Weight	Percentage Increase in Premium				F E N E C T H	I N C H	20% for Weights less than	Avg. Weight	Percentage Increase in Premium

The Health Insurance Build Chart is a guide to the rating action World Insurance Company will take regarding weight. The percentage increases assume that there are no other impairments present. If other impairments are found, the judgment of the underwriter will determine what action will be taken. Weights greater than those in the chart will render an applicant uninsurable for health coverage.

The Health Insurance Build Chart is for use only with insureds and dependents age 15 or over. Cases involving overweight dependents under age 15 will be considered individually by the underwriter in consultation with the Medical Director.

Premium increases because of weight will be reconsidered in accordance with the following guidelines:

1. If the increase is 20% or less, the certificate/policy must be in force at least six months.
2. If the increase is more than 20%, the certificate/policy must be in force at least one year.
3. In either case the weight loss must be maintained for more than six months. World must be furnished, at the expense of the insured, a statement from a physician or testing facility showing the insured's current height and weight.

## Juvenile Build Charts

AGES 0 - 2			AGES 3 - 9			AGES 10 - 14		
HT. (In.)	MIN.	MAX.	HT. (In.)	MIN.	MAX.	HT. (In.)	MIN.	MAX.
24	8	23	30	18	40	46"	44	92
26	10	26	34	22	44	48"	54	108
28	13	31	38	26	54	54"	63	126
30	15	36	42	32	64	56"	74	144
32	18	40	46	38	78	58"	87	166
34	21	48	50	46	94	60"	100	186
36	23	45	54	56	111	64"	113	206
38	26	48	58	66	128	66"	126	228
40	29							

For those conditions noted by "ER or Rating%", you have the option of choosing preference and noting on application for underwriting consideration

## Occupations Not Eligible for Health Insurance

**Note:** We will give individual consideration for health insurance coverage to people whose occupational duties include limited involvement in one of the occupations listed below.

- Asbestos/Toxic Chemical Workers
- Athletes — Professional
- Boxers, Prize Fighters
- Circus or Carnival Workers
- Drivers – Participating in racing, speed or endurance tests
- Enameling Factories (*Dusters, Mixers, Grinders, Laborers*)
- Explorers
- Explosives Workers or those handling, using or transporting explosives, including contractors
- Fireworks Manufacturers
- Fishermen – Offshore
- Horse Racing Personnel
- Livestock Breakers or Trainers
- Logging /Mill Workers
- Missionaries (*Outside U.S.*)
- Mining — Underground Workers
- Oil/Natural Gas, roughnecks, deck hands, including off-shore operations
- Pyrotechnists
- Rodeo Riders
- Structural Steel Workers
- Unemployed\*\*

***\*World Insurance Company's Health Underwriting Department reserves the right to decline other avocations or occupations not listed above.***

***\*\*Unemployed*** – We do not offer major medical coverage to applicants that are unemployed. The term “unemployed” includes those that are in between jobs and actually seeking employment. This would not include those noted as students, homemakers, retirees or those that are independently wealthy. Coverage is available through our Short-Term Major Medical product, since their unemployment may only be a temporary situation.

## Non-Medical Guidelines

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Aviation</b>		<b>Felony Conviction</b>	
a) Crop-dusters or Stunt Flying .....	ER	a) One conviction within 3 years .....	RNA
b) Pilots, including Student Pilots and Instructors participating in non-hazardous personal or professional activities .....	STD	b) still imprisoned, jailed or on parole .....	RNA
		c) Not imprisoned, jailed or on parole .....	IC
		d) Multiple convictions .....	RNA
		<i>Note:</i> Conviction involving, but not limited to, arson, bombing, counterfeiting, extortion, murder, fraud, narcotics, organized crime, and sexual assault <i>will not be considered, regardless of time frame.</i>	
<b>Driving Record</b>		<b>Foreign Nationals</b>	
Driving while under the influence, intoxicated or impaired		a) Without permanent visa or citizenship .....	RNA
a) Single episode		b) Permanent visa	
• Within 1 year .....	PP	• In US less than 1 year .....	RNA
• 1-2 years:		• Over 1 year, insurable in all other aspects ...	STD
- > age 25 .....	40% IC	c) If no permanent visa, in the US at least 2 years with Social Security card and drivers license ..	IC
- < age 25 .....	IC/ RNA		
• Over 2 years .....	STD	<b>Foreign Travel</b>	
b) Two or more episodes		a) Vacation or business travel, no establishment of residency in foreign country up to 5 times per year .....	STD
• Last within 3 years .....	RNA	b) Vacation or business travel greater than 5 times per year .....	IC
• Over 3 years .....	IC	b) Residency in foreign country, dependent on country's living conditions and political situation	
		• less than 5 months .....	STD
		• Over 5 months .....	RNA
<b>Drug Use</b>		<b>*Hazardous Avocations</b> or hobbies will require Elimination Riders. Such activities include, but are not limited to, hang-gliding, kayaking, scuba diving (below 100 ft.), motorcycle racing, auto racing, hazardous rodeo events, bungee jumping, mountain or rock climbing and competitive snowboarding/skiing.	
<i>Anabolic Steroids (Androgens)</i>		Typically, any form of motorized racing will require an Elimination Rider.	
Muscle Building "Steroids" .....	RNA		
<i>Marijuana</i>			
a) Admitted short-term experimental usage, no evidence of continued use, over 1 year ago, no criticism of habits, good work record, driving record and health history .....	STD		
b) Others .....	RNA		
<i>Prescription Drug Abuse</i>			
Excessive, abusive or habitual use of prescription drugs			
• Within 5 years .....	RNA		
• Over 5 years .....	IC		
<i>Use of Other Drugs of Abuse</i>			
• Within 7 years .....	RNA		
• Over 7 years .....	IC		

## Declinations

Applicants with any of these conditions will not qualify for coverage. This list is by no means complete since it would be impossible to list every condition. The ultimate decision regarding eligibility will be made by the underwriter.

Acromegaly	Hyperpituitarism
Addison's Disease	Hypoparathyroidism
Adrenal Insufficiency	Leukemia
AIDS	Lupus, Systemic
Alzheimer's Disease	Manic Depression
Amyotrophic Lateral Sclerosis (Lou Gehrigs Disease)	Marie-Strumpell Spondylitis
Angina Pectoris	Multiple Sclerosis
Angioplasty (Coronary)	Muscular Dystrophy
Ankylosing Rheumatoid Spondylitis	Myasthenia Gravis
Aplastic Anemia	Nephrotic Syndrome
Ascites	Neurogenic Bladder
Ataxia, Locomotor	Neuromyositis
Atherosclerosis	Organ Transplant
Autism (except where mandated by state)	Osteitis Fibrosa Cystica; Cystica Disseminata
Bipolar Disorder	Paget's Disease of the Bone
Buerger's Disease	Pancreatic Calcifications or Stones
Bypass, Coronary	Paralysis
Carotid Artery Occlusion	Paranoia
Cerebral Hemorrhage / Embolism / Thrombosis	Parkinson's Disease
Charcot-Marie Tooth Disease	Periarteritis Nodosa
Cirrhosis	Peripheral Neuritis
Claudication, Intermittent	Peripheral Vascular Disease
Chronic Fatigue Syndrome	Polycystic Kidney Disease
Congestive Heart Failure	Polycythemia
Coronary Artery Disease	Polyneuritis
Coronary Insufficiency	Psoriatic Arthritis
Cushing's Disease or Syndrome	Regional Enteritis
CVA	Reiter's Syndrome
Cystic Fibrosis	Renal Dialysis
Diabetes (except Gestational, see Pregnancy)	Renal Failure
Dwarfism	Renal Insufficiency
Esophageal Varices	Rheumatoid Arthritis
Factor Deficiencies (i.e. Factor VIII, IX, XI Deficiencies, etc.)	Schizophrenia
Fibrocystic Disease of the Pancreas	Scleroderma, all types
Heart Attack	Sickle Cell Anemia
Heart Disease	Sjorgen's Syndrome
Heart Stent	Still's Disease
Heart Valve Replacement	Stroke
Hemochromatosis	Tourette's Syndrome
Hemophilia A or B	Transient Ischemic Attack (TIA)
Hepatitis C	Turner's Syndrome
Human Immunodeficiency Virus (HIV)	Ulcerative Colitis
Hydrocephalus	

## Declinable Medications

Applicants with any of these medications will not qualify for coverage. This list is by no means complete since it would be impossible to list every medication. The ultimate decision regarding eligibility will be made by the underwriter.

<u>Medication</u>	<u>Indication</u>	<u>Medication</u>	<u>Indication</u>
Actos .....	Diabetes Mellitus	Humulin .....	Diabetes Mellitus
Amaryl .....	Diabetes Mellitus	Insulin .....	Diabetes Mellitus
Antabuse.....	Drug/Alcohol	Lantus.....	Diabetes Mellitus
Aricept.....	Dementia/Alzheimer's	Leukeran .....	Cancer
Artane.....	Parkinson's	Lithium.....	Psychosis
Asacol .....	Ulcerative Colitis	Metformin .....	Diabetes Mellitus
Avandia .....	Diabetes Mellitus	Methadone (ongoing use) .....	Drug Abuse
Azulfidine.....	Ulcerative Colitis	Methotrexate .....	Cancer/Rheumatoid Arthritis
AZT.....	HIV/AIDS	Methylprednisolone (ongoing use) .....	Steroid
Blood Thinner .....	Blood Clots	Morphine (ongoing use).....	Severe Pain
Cogentin.....	Parkinson's	Nitro-Bid .....	Chest Pain
Coumadin.....	Blood Thinner	Nitroglycerin.....	Chest Pain
Cytosan .....	Cancer	Nitroquick .....	Chest Pain
Enbrel.....	Rheumatoid Arthritis	Oxycontin (ongoing use).....	Severe Pain
Gleevec .....	Cancer	Plaquenil .....	Rheumatoid Arthritis
Glipizide.....	Diabetes Mellitus	Plavix .....	Anti Thrombotic
Glucophage .....	Diabetes Mellitus	Prednisone (ongoing use).....	Immune Disorder
Glucotrol .....	Diabetes Mellitus	Razadyne.....	Alzheimer's
Glucovance .....	Diabetes Mellitus	Risperdal .....	Psychosis
Glyburide .....	Diabetes Mellitus	Seroquel .....	Psychosis
Glyburide/Metformin.....	Diabetes Mellitus	Tamoxifen .....	Cancer
Heparin.....	Blood Thinner	Vicodin (ongoing use).....	Severe Pain
Humalog.....	Diabetes Mellitus	Warfarin .....	Blood Thinner

## Common Medications/Therapeutic Use Reference

The following is a list of prescription drugs and common therapeutic use. These prescription drugs are not limited to the treatment of the therapeutic use indicated. This list is by no means complete since it would be impossible to list every medication.

Accupril.....	High Blood Pressure	Cartia.....	High Blood Pressure
Accutane .....	Acne	Catapres.....	High Blood Pressure
Acetaminophen/Codeine.....	Severe Pain	Cefzil.....	Infection
Aciphex.....	Ulcer Disease	Celebrex.....	Nonsteroidal Anti-inflammatory
Actonel.....	Osteoporosis	Celexa .....	Depression
Actos.....	Diabetes	Cephalexin .....	Infection
Adderall.....	Attention Deficit Disorder	Cipro.....	Infection
Advair Diskus .....	Asthma	Ciprofloxacin.....	Infection
Allegra.....	Allergies	Clarinet.....	Allergies
Allopurinol.....	Gout	Clonazepam.....	Seizures
Alphagan .....	Glaucoma	Clotrimazole.....	Asthma
Alprazolam.....	Anxiety	Combivent.....	Asthma
Altace.....	High Blood Pressure	Concerta.....	Attention Deficit Disorder
Amaryl.....	Diabetes	Coreg.....	Cardiovascular
Ambien.....	Insomnia	Coumadin.....	Blood Thinner
Amitriptyline.....	Depression/Fibromyalgia	Cozaar.....	High Blood Pressure
Amoxicillin.....	Infection	Crestor.....	Cholesterol
Amoxil.....	Infection	Cyclobenzaprine .....	Pain
Amphetamine Salts.....	Attention Deficit Disorder	Darvocet.....	Severe Pain
Apri.....	Contraceptive	Depakote.....	Seizures
Aricept.....	Diabetes	Detrol LA.....	Urinary Disorder
Atacand.....	High Blood Pressure	Dexedrine.....	Stimulant/Diet Pill
Atenolol.....	High Blood Pressure	Diazepam.....	Anxiety
Ativan.....	Anxiety	Diffucan.....	Fungal Infection
Atrovent.....	Asthma	Digitek.....	Arrhythmia's
Augmentin.....	Infection	Digoxin.....	Arrhythmia's
Avalide.....	High Blood Pressure	Dilantin.....	Convulsion/Seizures
Avandian.....	Diabetes	Diltiazem.....	High Blood Pressure
Avapro.....	High Blood Pressure	Diovan.....	High Blood Pressure
Avelox.....	Infection	Ditropan XL.....	Urinary Disorder
Aviane.....	Contraceptive	Doxazosin.....	High Blood Pressure
AZT.....	HIV/Aids	Doxycycline Hyclate.....	Infection
Bactroban.....	Infection	Duragesic.....	Severe Pain
Beconase AQ.....	Asthma	Effexor.....	Depression
Benazepril.....	High Blood Pressure	Elavil.....	Depression
Betamethasone.....	Steroidal Anti-inflammatory	Elidel.....	Skin Disorders
Bextra.....	Nonsteroidal Anti-inflammatory	Enalapril.....	High Blood Pressure
Biaxin.....	Infection	Estradiol.....	Hormonal Supplement
Bisoprolol.....	High Blood Pressure	Evista.....	Osteoporosis
Bupropion.....	Depression	Fentanyl.....	Severe Pain
Cardizem.....	Cardiovascular	Finasteride.....	Prostate/Urinary Disorder
Carisoprodol.....	Pain	Flomax.....	Protate/Urinary Disorder

Flonase .....	Allergies	Lotensin.....	High Blood Pressure
Flovent .....	Asthma	Lotrel.....	High Blood Pressure
Fluconazole .....	Fungal Infection	Low-Ogestrel .....	Contraceptive
Fluoxetine .....	Depression	Macrobid .....	Infection
Fosamax .....	Osteoporosis	Maxzide.....	High Blood Pressure
Fosinopril .....	High Blood Pressure	Metforian.....	Diabetes
Furosemide.....	Diuretic	Methylphenidate .....	Attention Deficit Disorder
Gemfibrozil .....	Cholesterol	Metoprolol.....	High Blood Pressure
Gleevec .....	Cancer	Mevacor .....	Cholesterol
Glipizide.....	Diabetes Mellitus	Miacalcin.....	Osteoporosis
Glucophage .....	Diabetes Mellitus	Microgestin Fe .....	Contraceptive
Glucotrol .....	Diabetes Mellitus	Mirtazapine .....	Depression
Glucovance .....	Diabetes Mellitus	Mobic .....	Pain
Glyburide .....	Diabetes Mellitus	Monopril .....	High Blood Pressure
Glyburide/metformin .....	Diabetes Mellitus	Nadolol.....	High Blood Pressure
Heparin.....	Blood Thinner	Naprosyn .....	Nonsteroidal Anti-inflammatory
Humalog.....	Diabetes Mellitus	Naproxen.....	Pain and Inflammatory
Humulin .....	Diabetes Mellitus	Nasacort AQ.....	Allergies
Hydrochlorothiazide .....	Diuretic	Nasonex.....	Allergies
Hydrocodone.....	Severe Pain	Necon .....	Contraceptive
Hyzaar .....	High Blood Pressure	Nexium.....	Esophagitis/GERD
Ibuprofen.....	Nonsteroidal Anti-inflammatory	Niaspan .....	Cholesterol
Imipramine.....	Depression	Nifediac CC .....	High Blood Pressure
Imitrex.....	Migraine	Nifedipine .....	High Blood Pressure
Inderal .....	Blood Pressure/Migraines	Nortriptyline.....	Depression
Indocin .....	Nonsteroidal Anti-inflammatory	Norvasc .....	High Blood Pressure
Insulin .....		Omeprazole .....	Ulcer Disease
Ipratropium .....	Asthma	Omnicef.....	Infection
Kariva.....	Contraceptive	Ortho Evra.....	Contraceptive
Klonopin .....	Seizures	Ortho Tri-Cyclen.....	Contraceptive
Klor-Con .....	Potassium Deficiency	Ortho-Novum.....	Contraceptive
Lamictal .....	Seizures/Pain	Oxycodone .....	Severe Pain
Lanoxin .....	Arrhythmia's	Oxycontin.....	Severe Pain
Lantus.....	Diabetes	Pamelor .....	Depression
Lasix.....	Diuretic	Paroxetine .....	Depression
Lescol.....	Cholesterol	Patanol.....	Eye Inflammation
Leukeran .....	Cancer	Paxil .....	Depression
Levaquin .....	Infection	Penicillin .....	Infection
Levothroid.....	Thyroid	Percocet.....	Severe Pain
Levothyroxine .....	Thyroid	Phenobarbital .....	Convulsions/Seizures
Levoxyl .....	Thyroid	Phenytoin .....	Seizures
Lexapro .....	Depression	Plendil .....	High Blood Pressure
Lipitor .....	Cholesterol	Potassium Chloride .....	Potassium Deficiency
Lisinopril.....	High Blood Pressure	Pravachol.....	Cholesterol
Lithium.....	Psychosis	Premarin.....	Hormonal Supplement
Lopid .....	Cholesterol	Prempro.....	Hormonal Supplement
Lopressor.....	High Blood Pressure	Prevacid.....	Ulcer Disease
Lorazepam.....	Anxiety	Prilosec.....	Ulcer Disease

Procardia .....	Arrhythmia's	Tramadol .....	Severe Pain
Promethazine.....	Allergies	Trazodone.....	Depression
Propoxyphene .....	Severe Pain	Triamterene/HCTZ.....	High Blood Pressure
Proscar.....	Prostate/Urinary Disorder	Tricor.....	Cholesterol
Protonix.....	Esophagitis/GERD	Trimox.....	Infection
Proventil.....	Asthma	Trivora-28 .....	Contraceptive
Prozac.....	Depression	Tussionex .....	Cough and Cold
Pulmicort.....	Asthma	Ultracet.....	Severe Pain
Ranitidine.....	Ulcer Disease	Valacyclovir .....	Viral Infection
Remeron.....	Depression	Valium.....	Anxiety
Restoril.....	Insomnia	Valtrex .....	Viral Infection
Rhinocort Aqua .....	Allergies	Ventolin .....	Asthma
Ritalin.....	Attention Deficit Disorder	Verapamil .....	High Blood Pressure
Roxicet .....	Severe Pain	Viagra.....	Impotence
Seroquel .....	Psychosis	Wellbutrin.....	Anxiety/Depression
Singulair.....	Asthma	Xalatan .....	Glaucoma
Skelaxin.....	Pain and Inflammation	Xanax .....	Anxiety
Spiroinolactone .....	Diuretic	Yasmin 28 .....	Contraceptive
Strattera .....	Attention Deficit Disorder	Zantac.....	Ulcer Disorder
Sulfamethoxazole.....	Infection	Zestril .....	High Blood Pressure
Synthroid.....	Thyroid	Zetia .....	Cholesterol
Tegretol .....	Convulsions	Zithromax.....	Infection
Temazepam .....	Insomnia	Zocor.....	Cholesterol
Terazosin .....	High Blood Pressure	Zoloft.....	Depression
Timolol.....	Glaucoma	Zovirax.....	Skin Infection
Timoptic.....	Glaucoma	Zyloprim .....	Gout
Tobradex .....	Eye Disorder	Zyprexa .....	Depression
Topamax.....	Seizures/Pain	Zyrtec .....	Allergies
Toprol.....	High Blood Pressure		

## Medical Underwriting Guidelines

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Abdominal Complaints of Unknown Etiology</b>		<b>Amnesia — Loss of memory</b>	
a) Single episode within 1 year.....	PP	a) Cause known.....	RFC
• Over 1 year, resolved .....	IC	b) Cause unknown.....	RNA
<b>Abscess</b>		<b>Amputation</b>	
a) Brain, liver, lung, pancreas, other vital organs		a) Major limbs.....	ER
• Present, or within 6 mo. ....	RNA	b) Others.....	IC
• History of, complete recovery, over 6 mo....	IC	<b>Amyotrophic Lateral Sclerosis (Lou Gehrig's Disease).....</b>	
b) Skin or subcutaneous structures			RNA
• Recovered.....	STD	<b>Anal Fissure (see 'Hemorrhoids')</b>	
• Others .....	IC	<b>Anemia — Deficiency of hemoglobin or of red blood cells</b>	
<b>Acne — Inflammation of the oil-secreting glands</b>		a) Aplastic, Sickle Cell .....	RNA
Mild, uncomplicated, no RX medication .....	STD	b) Pernicious, no complicating factors	
Others, or medically treated .....	ER*	• Within 2 years .....	60%
*if not a policy exclusion		• 2-5 years .....	20%
<b>Addison's Disease .....</b>		• > 5 years .....	STD
	RNA	c) Iron deficiency, confirmed diagnosis, present or treated	
<b>Adhesions</b>		• Mild .....	STD
a) Present, symptomatic.....	ER	• Moderate .....	20%
b) Surgically corrected, within 3 years .....	ER	• Severe.....	RNA
Over 3 years.....	STD	d) Other anemias .....	IC
d) Multiple surgeries .....	ER	e) Sickle Cell Trait, definite diagnosis.....	STD
<b>Adoption (see 'Pregnancy' for handling)</b>		<b>Aneurysm — Abnormal dilation of artery or vein</b>	
<b>AIDS, or HIV Positive Test Results .....</b>		a) Present.....	RNA
	RNA	b) All kinds, treated 0-1 years .....	RNA
<b>Alcoholism (Including participation in AA)</b>		c) 1-3 years.....	IC/60%
a) Total abstinence less than 5 years.....	RNA	d) > 3 years.....	STD
b) 5-8 years of sobriety .....	40%	<b>Angina Pectoris .....</b>	
c) 8-10 years of sobriety .....	20%		RNA
d) over 10 years of sobriety .....	STD	<b>Angioplasty .....</b>	
<b>Allergies (without asthma)</b>			RNA
a) Seasonal, no more than six months per year, or asthma component including inhaler use ....	STD	<b>Ankylosing Spondylitis.....</b>	
b) Daily use of prescription drugs or with asthmatic component .....	ER or 20%*		RNA
c) Undergoing desensitization treatment within past two years .....	ER or 20%*	<b>Anorexia Nervosa (see 'Eating Disorders')</b>	
*STD with \$2,500 deductible with no Rx benefit or generic-only benefit.		<b>Anxiety (see 'Mental-Emotional Disorders')</b>	
<b>Alzheimer's Disease or Syndrome .....</b>		<b>Aortic Stenosis, Insufficiency, Regurgitation (see 'Heart Murmur')</b>	
	RNA	<b>Appendicitis</b>	
<b>Amenorrhea — Absence of menstruation (see 'Uterine Disorders')</b>		a) Un-operated	
		• Within 2 years .....	ER
		• Over 2 years .....	STD
		b) Operated, recovered.....	STD

For those conditions noted by "ER or Rating%", you have the option of choosing preference and noting on application for underwriting consideration

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Arteriosclerosis</b> — <i>Hardening or degeneration of the arteries</i>		<b>Bartholin Gland Cyst</b>	
a) Aortic, incidental finding, asymptomatic.....	IC	a) Present.....	ER
b) Symptomatic or peripheral .....	RNA	<i>STD with \$1,000 or higher deductible</i>	
<b>Atherosclerosis</b> .....	RNA	b) Operated, recovered .....	STD
<b>Arthritis - Osteoarthritis, degenerative joint disease</b>		<b>Bell's Palsy</b> — <i>Paralysis of the muscles on one side of the face due to compression of the facial nerve</i>	
a) Asymptomatic, incidental x-ray findings only, characterized as mild, no treatment administered.....	STD	a) Present.....	ER
b) Generalized symptoms, multiple minor joints or more extensive treatment.....	ER	b) With residuals .....	ER
c.) Major joint involvement .....	ER	c) Single episode, complete recovery, no residuals .....	STD
d) Operated ( <i>joint replacement</i> ) .....	ER	d) Multiple episodes.....	IC
e) Rheumatoid arthritis .....	RNA	<b>Bipolar Disorder</b> .....	RNA
f.) Ankylosing spondylitis .....	RNA	<b>Blindness</b>	
g) Psoriatic arthritis.....	RNA	Traumatic or idiopathic, either or both eyes, well adjusted, self-sufficient, no active or progressive disease process, no surgery anticipated .....	IC
<b>Asbestosis (see 'Pneumoconiosis')</b>		<b>Blood Pressure, Elevated (see 'Hypertension')</b>	
<b>Asthma, Bronchial Asthma</b> – <i>Respiratory disorder</i>		<b>Bone Spurs</b> — <i>Benign outgrowth of bone</i>	
a) Mild, no medications or treatment, 2 years .....	STD	a) Asymptomatic, non-weight bearing joint .....	STD
b) Mild, exercise induced, occasional medication .....	ER or 20%*	b) Operated, recovered.....	STD
c) Moderate, on daily medication .....	ER or 40%*	c) Others.....	ER
d) Severe, multiple hospitalizations or ER visits.	RNA	<b>Brain Concussion</b>	
<b>NOTE: The above ratings apply to tobacco-free applicants only. Tobacco users will be rated in the next higher category.</b>		a) No surgery, no residuals, fully recovered	
*STD at \$5,000 deductible with no Rx benefit or generic-only benefit.		• within 6 months.....	PP
<b>Atrial Septal Defect</b> .....	IC	• Over 6 months.....	STD
<b>Attention Deficit Disorder (see 'Hyperactivity')</b>		b) Others, nervous system residuals.....	RMD
<b>Autism</b> .....	RNA	<b>Breast Disease (not including cancer)*</b>	
( <i>except for state mandates</i> )		a) Fibrocystic breast disease (Cystic Mastitis)	
<b>Back Sprain or Strain, including Whiplash</b>		• Mild — Asymptomatic, small cysts, diagnosis confirmed by mammogram and biopsy or aspiration .....	STD
a) Single episode, mild, not hospitalized, short duration within 6 months .....	ER or 20%	• Moderate and Severe — Symptomatic, multiple cysts, requiring medication and occasional biopsies. Diagnosis confirmed by mammogram and biopsy or aspiration....	ER
<i>STD with \$5/10,000 deductible</i>		b) Acute mastitis, single episode	
• Over 6 months.....	STD	• Fully recovered.....	STD
b) More severe, recurring, hospitalized,		• Recurrent.....	ER
• Last episode within 4 years.....	ER	<i>*Except for state mandated benefits</i>	
• Over 4 years .....	STD	<b>Breast Implants</b> .....	STD
<b>Barrett's Esophagus</b> .....	IC	<b>Bright's Disease</b> — ( <i>see 'Nephritis'</i> )	

For those conditions noted by "ER or Rating%", you have the option of choosing preference and noting on application for underwriting consideration

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Bronchitis</b> — <i>Inflammation of the bronchial tubes</i>		c) Carcinoma In Situ	
a) Acute, one or two mild episodes per year associated with URI, recovered.....	STD	• Within 1 year.....	RNA
b) Chronic, multiple attacks per year		• Over 1 year.....	IC
Mild, non smoker.....	ER or 40%	d) Hodgkin's or Non-Hodgkin's Lymphoma .....	
c) Moderate or severe .....	RNA	• 1-10 years .....	RNA
<b>NOTE: Tobacco users will be rated in the next higher category.</b>		• > 10 years .....	RMD
		e) Leukemia .....	RNA
<b>Bulimia Nervosa (see 'Eating Disorders')</b>		<b>Cardiac Arrhythmia</b>	
		All kinds .....	ER
<b>Bunions (also Hammertoe)</b>		<b>Carpal Tunnel Syndrome</b> — <i>Compression of median nerve of the wrist</i>	
a) Un-operated .....	ER	a) Present.....	ER
b) Surgically corrected, full recovery.....	STD	b) Recovered, 0-2 years .....	ER
		Thereafter, no residuals.....	STD
<b>Burns</b>		<b>Cataract</b> — <i>Opacity of the lens in the eye</i>	
a) 1st and 2nd degree .....	STD	a) Un-operated, or only one eye corrected.....	ER
b) 3rd degree .....	ER	b) Both eyes operated, recovered.....	STD
<b>Bursitis</b> — <i>Inflammation of the bursa</i>		c) With lens implant.....	STD
a) Single episode, recovered		<b>Celiac Sprue</b> .....	RNA
• Within 1 year.....	ER	a) Present.....	RNA
STD with \$5/10,000 deductible		b) Recovered	
• Over 1 year.....	STD	• Under age 3 .....	RNA
b) Multiple episodes		• Over age 3 0-2years.....	RNA
• Within 2 years .....	ER	• Over age 3 > 2 years .....	40%
• Over 2 years .....	STD	<b>Cerebral Hemorrhage</b>	
c) Chronic .....	ER	a) 0-5 years.....	RNA
<b>Cancer</b>		b) 5 years.....	RMD
<b>Skin (basal cell or squamous cell)</b>		<b>Cerebral Palsy</b> — <i>Loss of voluntary muscle movement</i>	
a) Present.....	RNA	a) 0-20 years old .....	RNA
b) Operated, less than 5 mm		b) 20 and over, single limb affected, capable of self-support, no mental impairment.....	40%
• Within 2 years .....	ER	c) All others .....	RNA
• Over 2 years .....	STD	<b>Cerebral Vascular Accident</b> .....	RNA
c) Others.....	IC	<b>Cervical Polyps</b>	
<b>Melanoma</b>		a) Present.....	ER
a) Present.....	RNA	b) Operated, recovered	
b) Operated, Clarks Level III or less		• Pathology report benign, single episode .....	STD
• Within 5 years .....	RNA	• Multiple episodes .....	ER
• Over 5 years .....	IC	<b>Cervicitis or Cervical Erosion</b> — <i>Inflammation of the cervix</i>	
c) Melanoma in-situ 0-2 years .....	RNA	a) Single episode, within 6 months.....	ER
• 2-5 years .....	ER	b) Single episode, no residuals, over 6 months....	STD
• > 5 years .....	STD	c) Present or recurrent.....	ER
d) Clarks Level IV or V.....	RNA	d) No treatment or recurrence over 2 years.....	STD
<b>Internal</b>			
a) Treated within 9 years.....	RNA		
b) Over 9 years.....	IC		

For those conditions noted by "ER or Rating%", you have the option of choosing preference and noting on application for underwriting consideration

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Cesarean Section</b> — <i>Surgical procedure for delivery of a baby</i>		c) Ulcerative Colitis, Crohn's Disease	RMD
a) History of one or more C-sections, applicant under age 45.....	ER	• > 5 years since last treatment or symptoms .	
b) Age 45 and older, or after normal pregnancy .. or sterilization procedure .....	STD	<b>Collagen Disease</b>	
		Systemic Lupus Erythematosus, Periarteritis Nodosa, Scleroderma.....	RNA
<b>Chiropractic Manipulation</b> – <i>Routine chiropractic alignment, adjustment or manipulations, no symptoms of or reference to back or spine disorders</i>		<b>Colostomy</b>	
a) 12 visits or less within past year .....	STD	a) Open.....	RFC/IC
b) 13 or more visits within past year		b) Closed, no complications.....	RFC
• 12-20 visits .....	20% or ER*	c) Performed for cancer .....	RNA
• > 20 visits .....	IC/ Rider & 20%	<b>Condyloma (see 'Sexually Transmitted Diseases')</b>	
c) Over 1 year since last visit.....	STD	<b>Congenital Cardiac Defects</b> .....	
* Will consider standard with \$2,500 deductible.		IC	
<b>Charcot-Marie-Tooth Disease</b> .....	RNA	<b>Congenital Kidney Absence</b>	
<b>Cholesterol (see 'Hyperlipidemia')</b>		a) Incidental discovery, no history of kidney or urinary tract disorders .....	STD
<b>Chronic Fatigue Syndrome</b> .....	RNA	b) Recurring kidney or urinary tract disorders.....	RNA
<b>Chronic Obstructive Lung Disease (see 'Emphysema')</b>		c) Others.....	IC
<b>Chronic Pain</b> .....	RNA	<b>Congestive Heart Failure</b> .....	
Ongoing use of prescription pain medication for period longer than 6 months		RNA	
<b>Cirrhosis</b> .....	RNA	<b>Corneal Ulcer</b>	
<b>Cleft Palate</b> — <i>Congenital abnormality of the roof of the mouth</i>		a) Present or within 1 year .....	ER
a) Un-operated or under age 12 .....	ER	b) Recovered, no visual impairment > 1 year .....	STD
b) Operated, recovered, no additional surgery planned or recommended, over age 12 .....	STD	<b>Coronary Artery Disease</b>	
<b>Club Foot</b> — <i>Congenital deformity of the foot</i>		Heart attack, angina pectoris, coronary insufficiency, myocardial infarction, myocardial ischemia, bypass or angioplasty .....	
a) Un-operated or operated with residuals.....	ER	RNA	
b) Operated, no residuals, no further surgery planned or recommended.....	STD	<b>Coronary By-Pass Surgery</b> .....	
<b>Coarctation of Aorta</b> .....	IC	RNA	
<b>Colitis</b> — <i>Inflammation of the large intestine</i>		<b>Coronary Insufficiency</b> .....	
a) Irritable bowel syndrome, spastic colitis or mucous colitis.		RNA	
• Present .....	ER	<b>Coronary Occlusion</b> .....	
• fully recovered		RNA	
- 0-3 years .....	ER	<b>Crohn's Disease (Regional Ileitis) (see 'Colitis-Ulcerative')</b>	
- Over 3 years.....	STD	<b>Crossed Eyes</b>	
b) Ulcerative or Ischemic colitis, Crohn's Disease 0-5 years .....	RNA	a) Without correction .....	ER
		b) With successful correction and recovery	
		• 0-1year.....	IC
		• > 1 year.....	STD
		<b>Cystic Fibrosis</b> .....	
		RNA	
		<b>Cystitis (see 'Urinary Tract Infection')</b>	
		<b>Cystocele (Including 'Rectocele') — Hernia of urinary bladder into the vagina or rectum</b>	
		a) Present.....	ER
		b) With surgical correction and recovery .....	STD

For those conditions noted by "ER or Rating%", you have the option of choosing preference and noting on application for underwriting consideration

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Cysts – Sebaceous, Ganglion, Pilonidal</b>		<b>Diverticulitis</b>	
a) Single Episode		a) Un-operated .....	ER
• Present .....	ER*	b) Operated, no residual diverticulosis, recovered, no colostomy or ileostomy 0-3 years.....	ER or 40%
• Removed .....	STD	• > 3 years .....	STD
b) Recurrent Episodes		<b>Down’s Syndrome – Refer to Mentally Challenged</b>	
• 0-2 years .....	ER	<b>Duodenal Ulcer –Peptic ulcer located in the stomach, esophagus or intestine (see ‘Ulcer Disease’)</b>	
• Over 2 years .....	STD	<b>Dupuytren’s Contracture (No associated conditions)</b>	
<i>*Will consider standard with \$2,500 deductible.</i>		a) Un-operated .....	ER
<b>Deafness — Total or partial, depending on age and cause</b>		b) Surgically corrected 0-1 year .....	ER
a) Slight or moderate.....	STD	• > 1 year.....	STD
b) Moderate or total.....	ER & RFC	<b>Dysmenorrhea (see ‘Uterine Disorders’)</b>	
<b>Degenerative Joint Disease (see ‘Arthritis’)</b>		<b>Eczema (see ‘Skin Disorders’)</b>	
<b>Depression (see ‘Mental-Emotional Disorders’)</b>		<b>Eating Disorders</b>	
<b>Dermatitis (see ‘Skin Disorders’)</b>		a) Present or multiple episodes .....	RNA
<b>Deviated Nasal Septum</b>		b) Currently < age 20.....	RNA
a) Un-operated .....	ER	b) Recovered, normal weight maintained, psycho-therapy discontinued	
b) With surgical correction and recovery .....	STD	• Within 3 years .....	RNA
<b>Diabetes Insipidus .....</b>	RNA	• 3-5 years .....	60%
<b>Diabetes Mellitus.....</b>	RNA	• 5 years and up.....	STD
<b>Diabetes, Gestational — Deficiency of internal secretion of the pancreas during pregnancy. No history or current evidence of diabetes, current Glucose normal</b>		c) Others.....	RNA
a) Within 6 mo. after pregnancy .....	PP	<b>Electrocardiogram</b>	
b) 6 mo-5 years .....	40%	Abnormal.....	IC
c) Over 5 years.....	IC	<b>Emphysema (COPD) —Airway obstruction resulting from destruction of alveoli and bronchioles</b>	
<b>Dilation and Curettage (see ‘Uterine Disorders’)</b>		a) Incidental finding, asymptomatic, non-tobacco user .....	IC
<b>Disc (Spinal) Herniated or Slipped</b>		b) Mild non- smoker .....	IC*
a) Single episode, recovered, no residuals		c) moderate-severe or smoker .....	RNA
• Within 3 years .....	ER	<i>*If hypertension, diabetes or other chronic disease is also present - RNA</i>	
• Over 3 years .....	STD	<b>Encephalitis —Infectious or inflammatory disease of the brain</b>	
b) Others, including those with recurrence of symptoms or those with multiple surgeries .....	ER	a) Post infectious or viral, duration under 3 weeks, recovered, no residuals	
<b>Dislocations</b>		• 0-6 mo .....	PP
a) Hip (congenital)		• > 6 mo .....	STD
• Present.....	ER	b) Other types.....	IC
• operated 0-3 years .....	ER		
• > 3 years .....	STD		
b) other joints			
• Last within 1 years .....	ER		
• Over 1 years .....	STD		
<b>Diverticulosis</b>			
a) Incidental finding .....	STD		
b) Symptomatic.....	ER		

For those conditions noted by “ER or Rating%”, you have the option of choosing preference and noting on application for underwriting consideration

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Endocarditis</b> — <i>Inflammation of the lining of the heart</i>		<b>Esophageal Stricture</b>	
a) Infectious, acute, no residual heart impairment, complete recovery		a) Present or requiring periodic dilation .....	ER
• Within 1 year .....	RNA	b) Recovered, no further dilation	
• 1- 3 years .....	60%	• Within 2 years .....	ER
• > 3 years .....	STD	• Over 2 years .....	STD
b) With residuals .....	RNA		
<b>Endometriosis</b> — <i>Endometrial tissue outside of the inner lining of the uterus</i>		<b>Esophagitis, Esophageal Reflux (GERD)</b> — <i>Inflammation of the esophagus</i>	
a) Present .....	ER	a) Mild attacks treated by non prescription medication.....	STD
b) Total Hysterectomy, symptom and treatment free		b) Frequent or chronic attacks or treated with prescription medication	
• 0-6 months since treatment .....	ER	• Within 1 year .....	ER or 20%*
• > 6 months .....	STD	• No attacks or treatment over 1 year .....	STD
c) Partial Hysterectomy		• Hiatal Hernia	
• 0-2 years .....	ER	- Unoperated, symptomatic .....	ER or Rate 20%
• > 2 years .....	STD	- Operated, fully recovered, no further attacks or GERD.....	STD
d) No hysterectomy, symptom and treatment free		- Fully recovered, continuing attacks of GERD .....	ER*
• 0-10 years .....	ER		
• > 10 year .....	STD		
<b>Endometritis</b> — <i>Infection of the lining of the uterus</i>			
a) Present .....	ER		
b) 0-6 mo .....	RMD		
c) Over 6 mo, recovered .....	STD		
<b>Epicondylitis (see ‘Tendonitis’)</b>		<b>Esotropia &amp; Exotropia (see ‘Crossed Eyes’)</b>	
<b>Epididymitis (see ‘Testicular Disorders’)</b>		<b>Fatty Liver</b> .....	RFC
<b>Epilepsy</b>		<b>Fibrillation (see ‘Cardiac Arrhythmia’)</b>	
a) Jacksonian, partial seizure		<b>Fibrocystic Breast Disease</b> — <i>Benign abnormal breast tissue (see ‘Breast Disease’)</i>	
• Last attack 0-1 year .....	RNA	<b>Fibromyalgia</b>	
• 1-5 years .....	40%	a) Mild	
• > 5 years .....	STD	• Present .....	IC
b) Grand Mal, (Tonic-clonic), no residual impairment		• Recovered,	
• Age 0-16 .....	RMD	- Within 2 years .....	40% or ER
• Over 16		- Over 2 years .....	STD
- Last seizure within 2 years .....	RNA		
- 2-5 years .....	40%	b) Others	
- Over 5 years .....	20%	• Present .....	RNA
c) Petit Mal (Absence Type)		• Recovered,	
• Last seizure within 1 year .....	RNA	- Within 3 years .....	PP
• 1-5 years since last seizure .....	20%	- Over 3 years .....	STD
• Over 5 years .....	STD		
<b>Febrile Seizures</b>		<b>Fistula-in-ano (see ‘Hemorrhoids’)</b>	
a) One attack within 0-1 year .....	PP		
b) > 1 year .....	STD		
c) 2 or more attacks within 0-1 year .....	PP		
• 1-5 years .....	ER		
• > 5 years .....	STD		

\*STD with \$5,000 deductible with no Rx benefit or generic-only benefit.

For those conditions noted by “ER or Rating%”, you have the option of choosing preference and noting on application for underwriting consideration

Impairment/Condition	Underwriting Action	Impairment/Condition	Underwriting Action
<b>Fractures (other than skull)</b>		<b>Gout</b> — <i>A metabolic disorder which usually affects males, involves an elevation of uric acid which can result in arthritis and kidney disorders, including kidney stones</i>	
a) 0-6 months .....	ER	a) Infrequent attacks, symptomatic, on meds, uncomplicated build and blood pressure not ratable, no other CVR impairments .....	ER
b) Over 6 months, no residuals or hardware .....	STD	b) Frequent attacks, with ratable build and blood pressure, or with other cardiovascular impairment .....	20-60%*
c) Residuals or hardware.....	ER for 5 years	* <i>depending on Co-morbidity factors</i>	
d) Vertebrae - recovered, no residuals		c) With repeated history of kidney stones.....	RNA
• Within 3 years .....	ER	d) Elevated uric acid only, asymptomatic, no medication.....	STD
• Over 3 years .....	STD		
• Complications or residuals.....	RNA	<b>Guillain-Barre Syndrome</b> — <i>Disorder characterized by sudden onset of weakness and paralysis of limbs and face</i>	
<b>Fractures (skull)</b>		a) Present.....	RNA
a) No craniotomy, no bone depression, no intracranial hemorrhage, recovered, no residuals		b) Recovered, definite diagnosis, no residuals	
• 0-6 months.....	PP	• 0-1 year.....	PP
